Problem Statement

Buying a plot of land has become a very tricky affair, especially when considering the blatant corruption surrounding the deals including creating fake documents, demand for half payment in cash and also issues of disputed land sales. So, the process become far more difficult for the buyer to buy a piece of land of his/her dream

zameen Registration

Buying land is the most preferred and most reliable form of investment when it comes to investing in the real estate industry. Also, due to the outbreak of the pandemic, demand for plotted developments has skyrocketed as self-owned homes, villas, or row houses, provide better social distancing as compared to apartments.

01

Paperwork

Paperwork can be complex owing to new terms and due to indulgence in never before like experience. However, it is one of the most significant processes to ensure secure ownership of land.

02

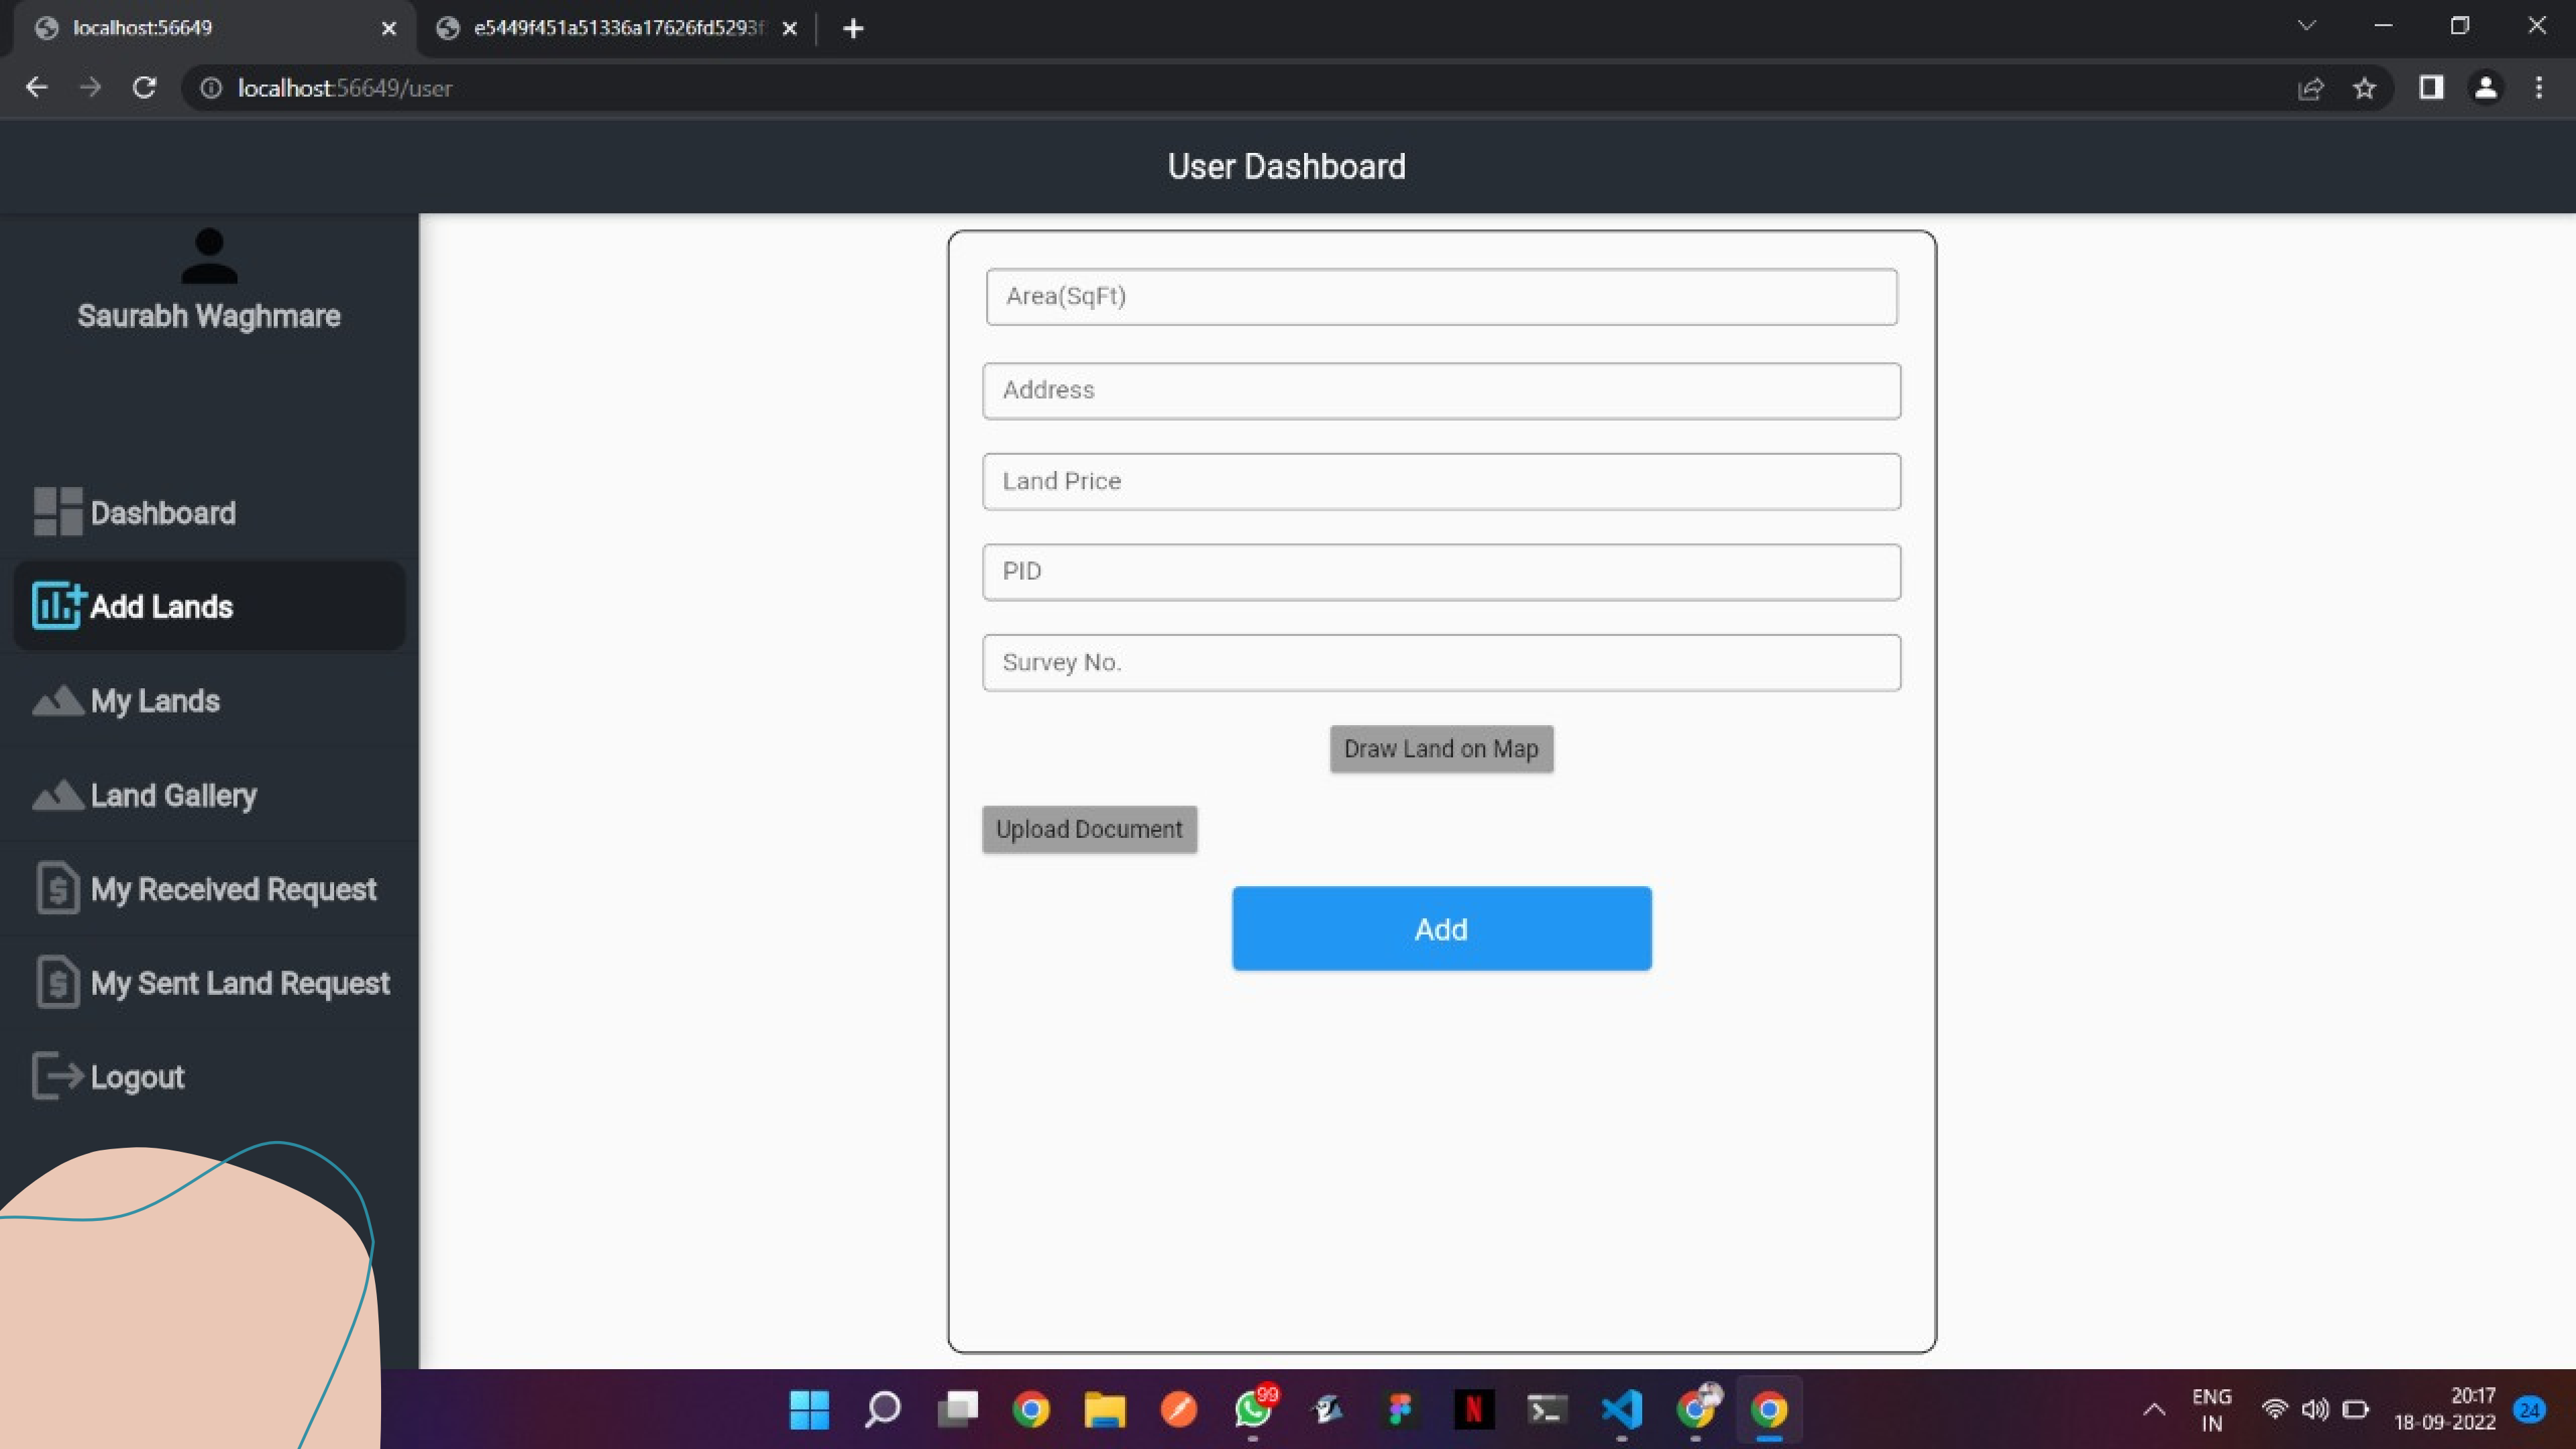

Purpose and location

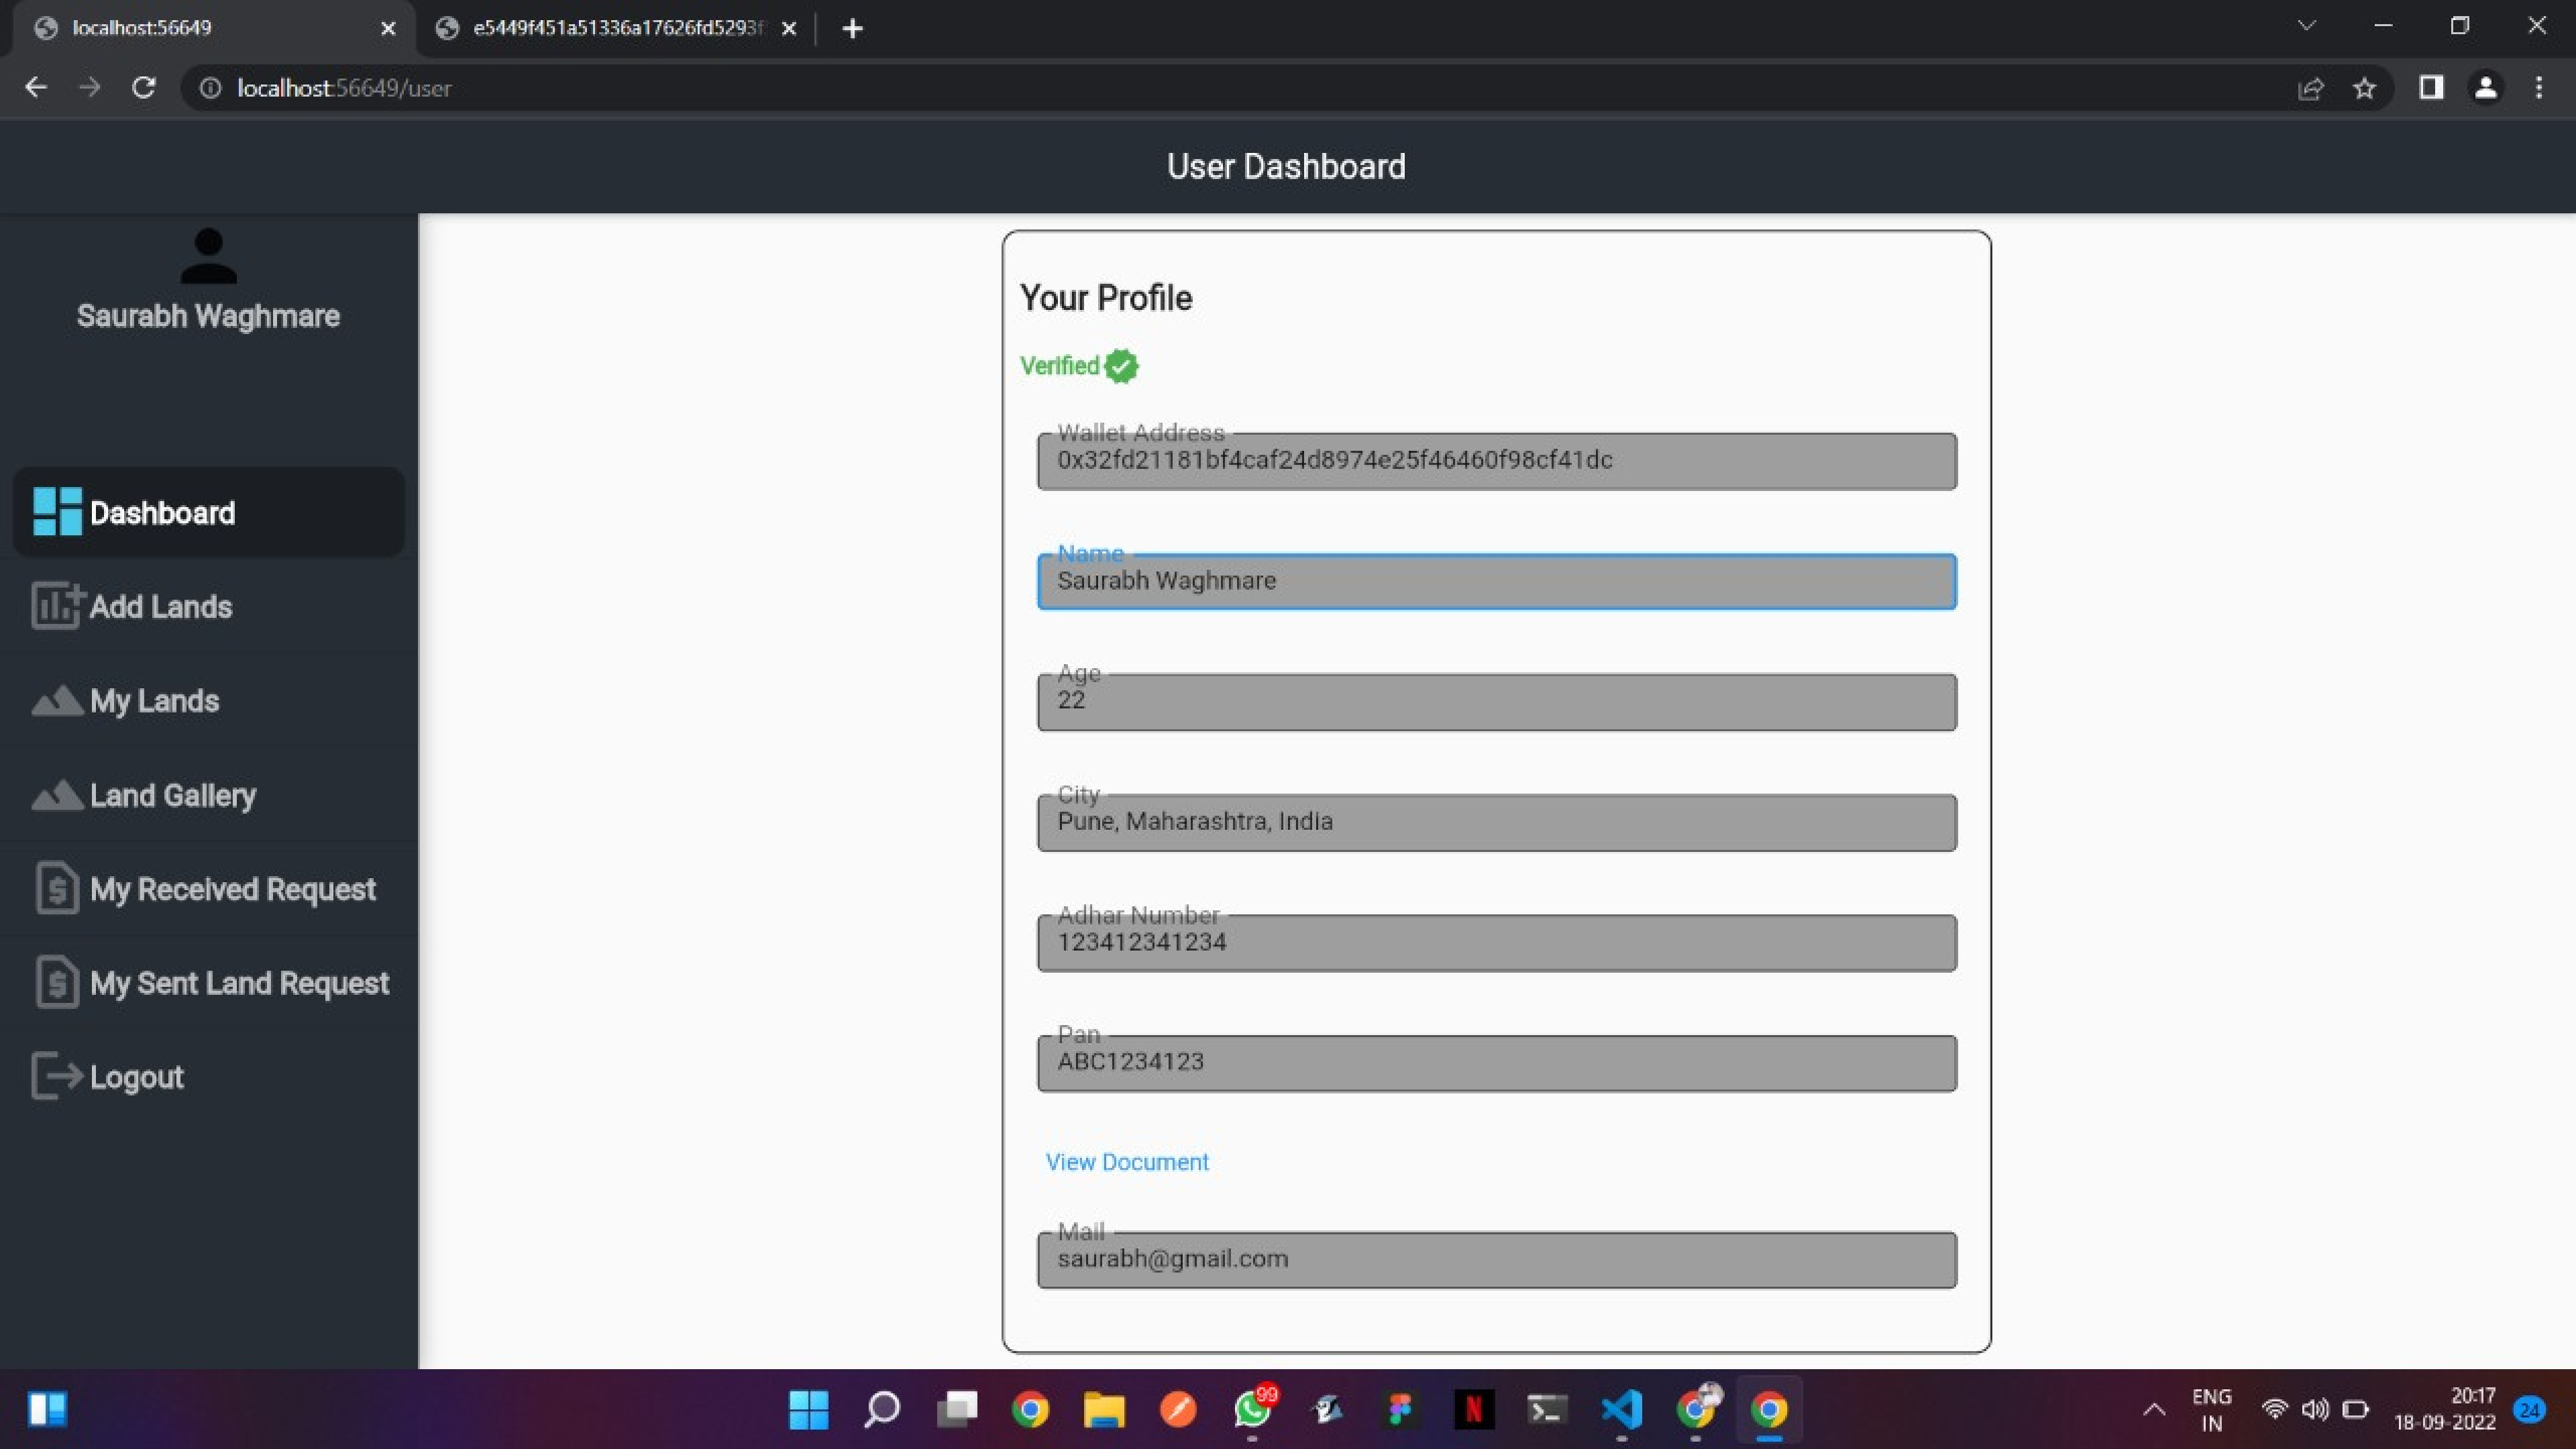

Different purposes of buying land set parameters for deciding the location. One panning to build a home should strategically lock a location that is near the workplace.

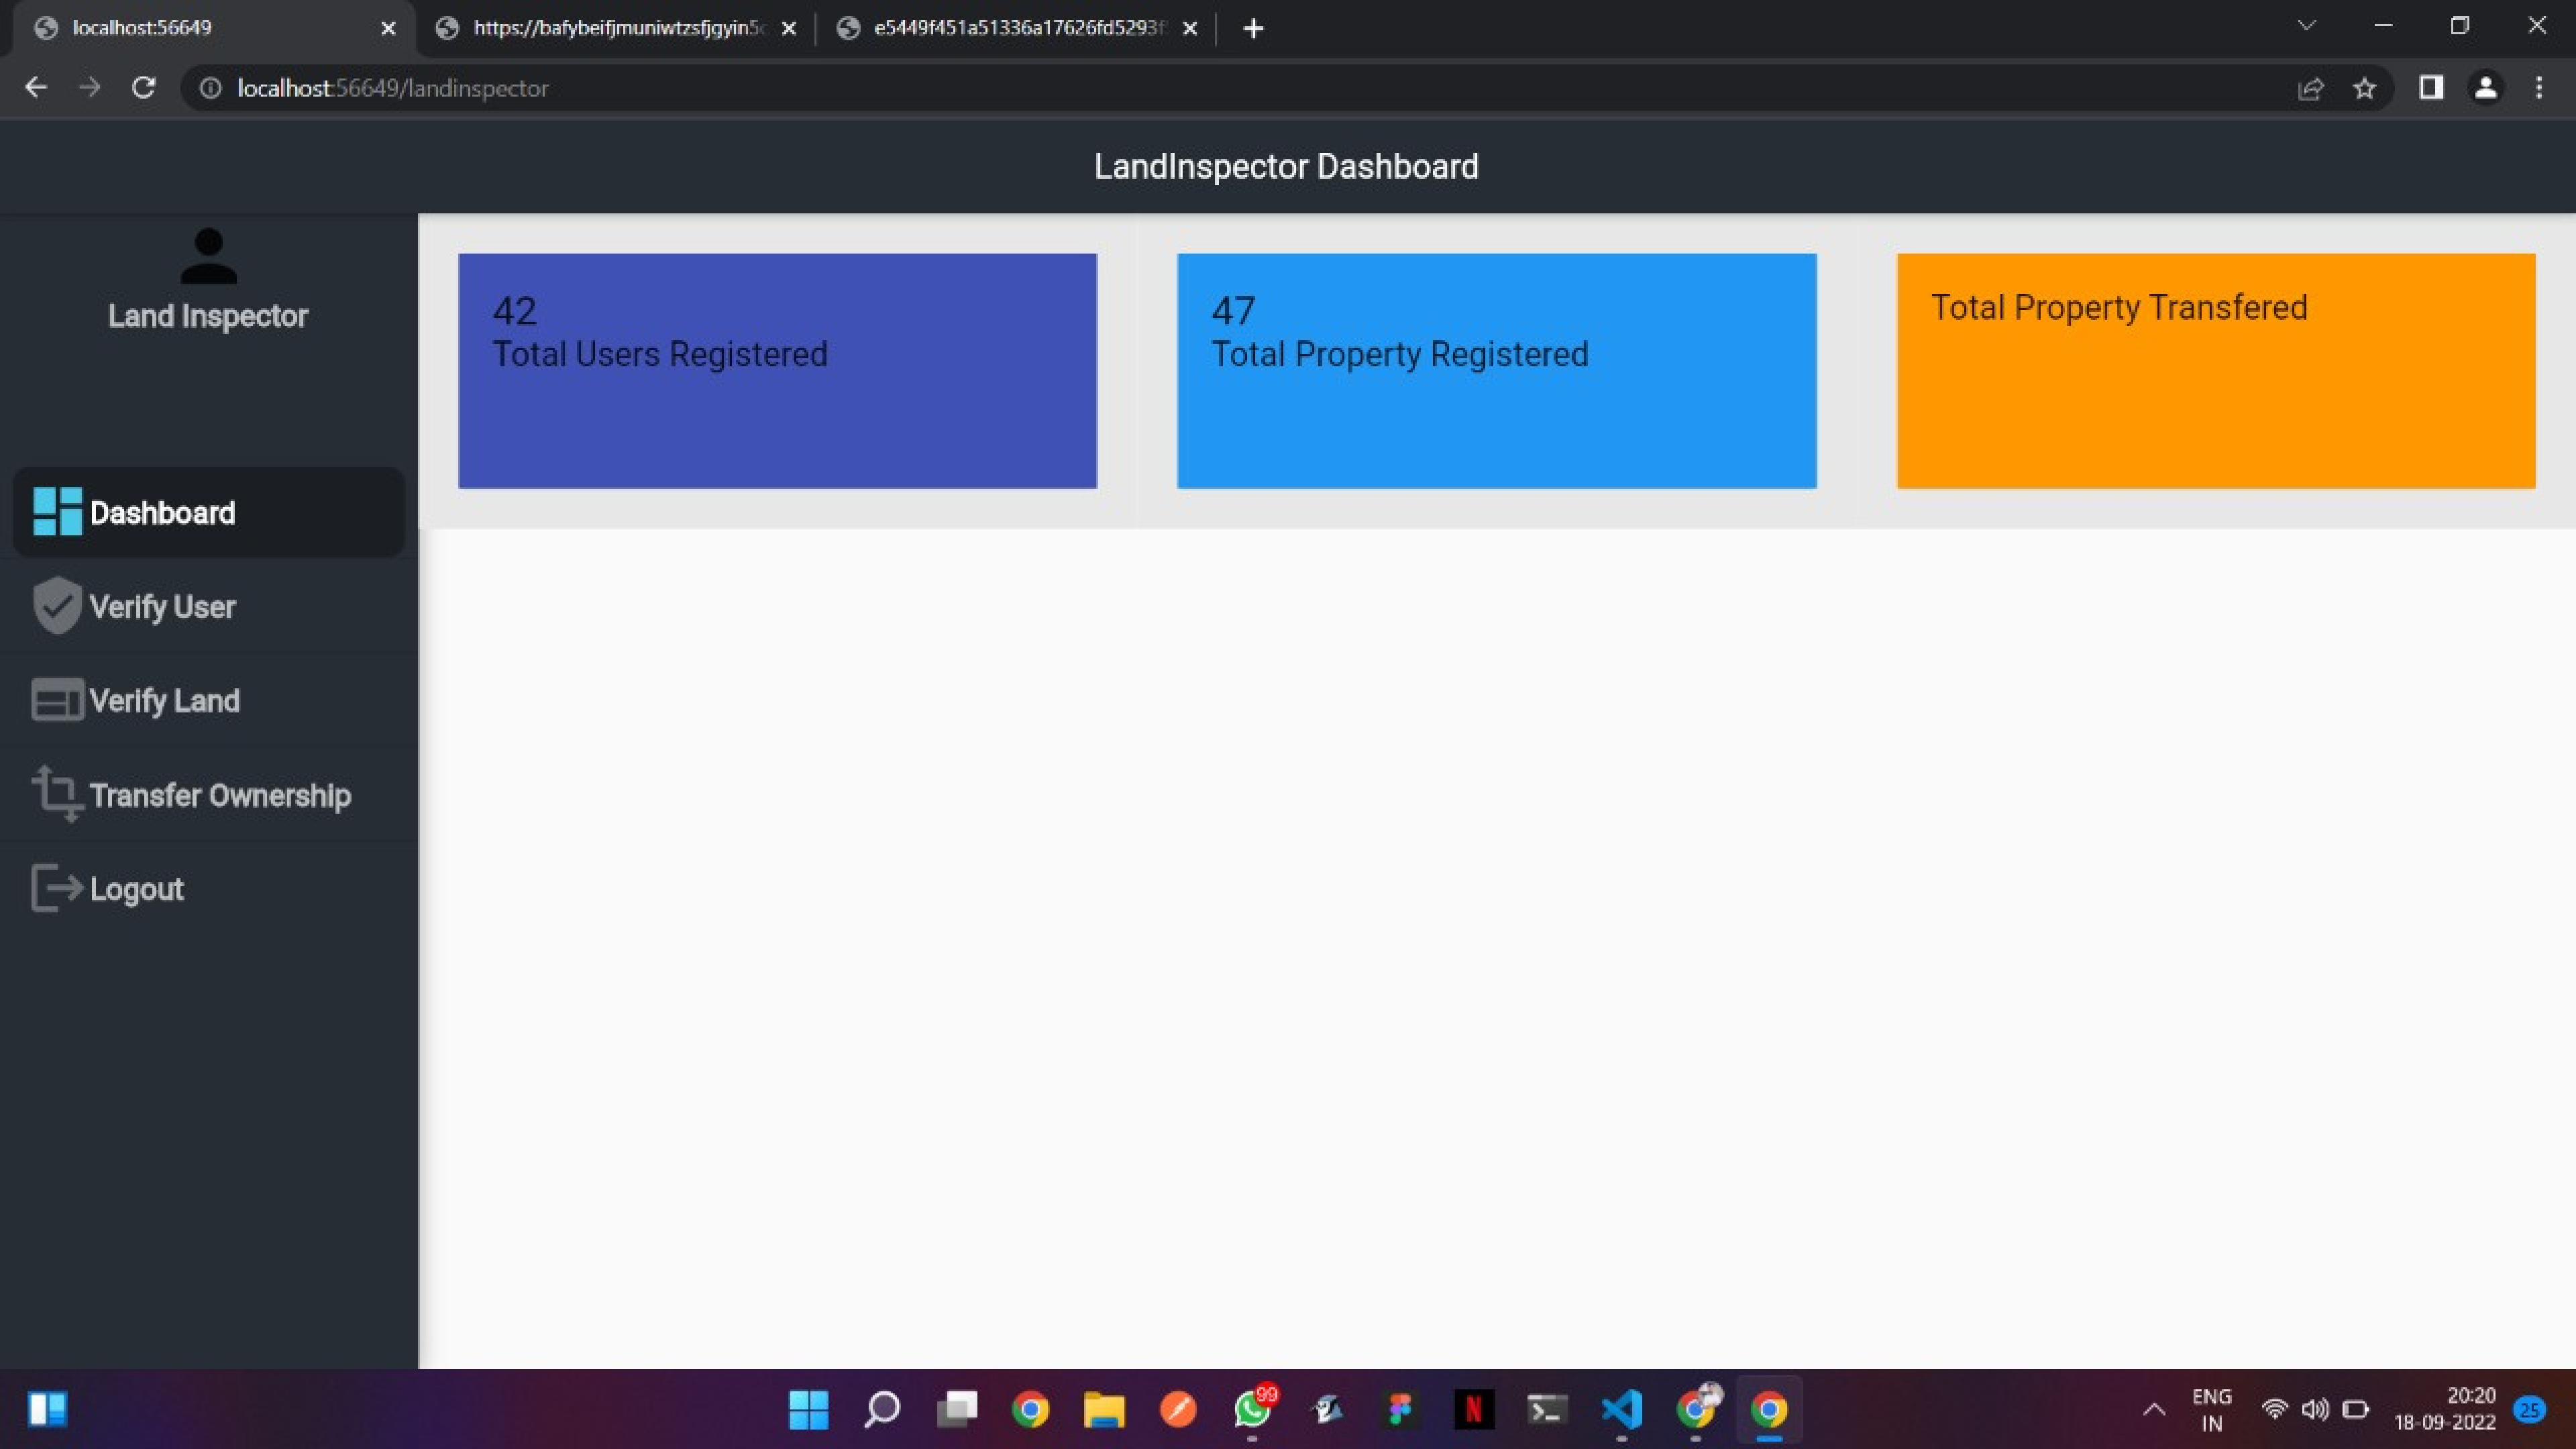

03

Transaction obstructions

Usually, circle rates do not match market rates of the area and hence land transactions may demand high cash component.

Features

Our app also provide soome of the unique feature that makes you stand out from the crowd.

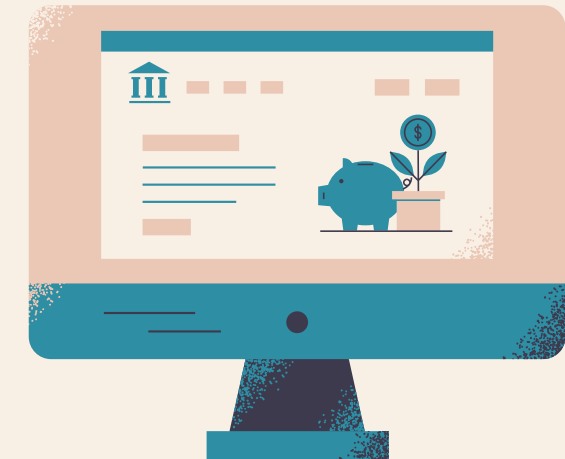

Security

It provides the best security as it is based on blockchain security

Paperwork

No paperwork issues we got it done for you

Convenience

We bring your dream land to your smart devices at your convenience

Architecture of zameenKart

Architecture of zameenKart involves

Blockchain

Flutter

Metamask

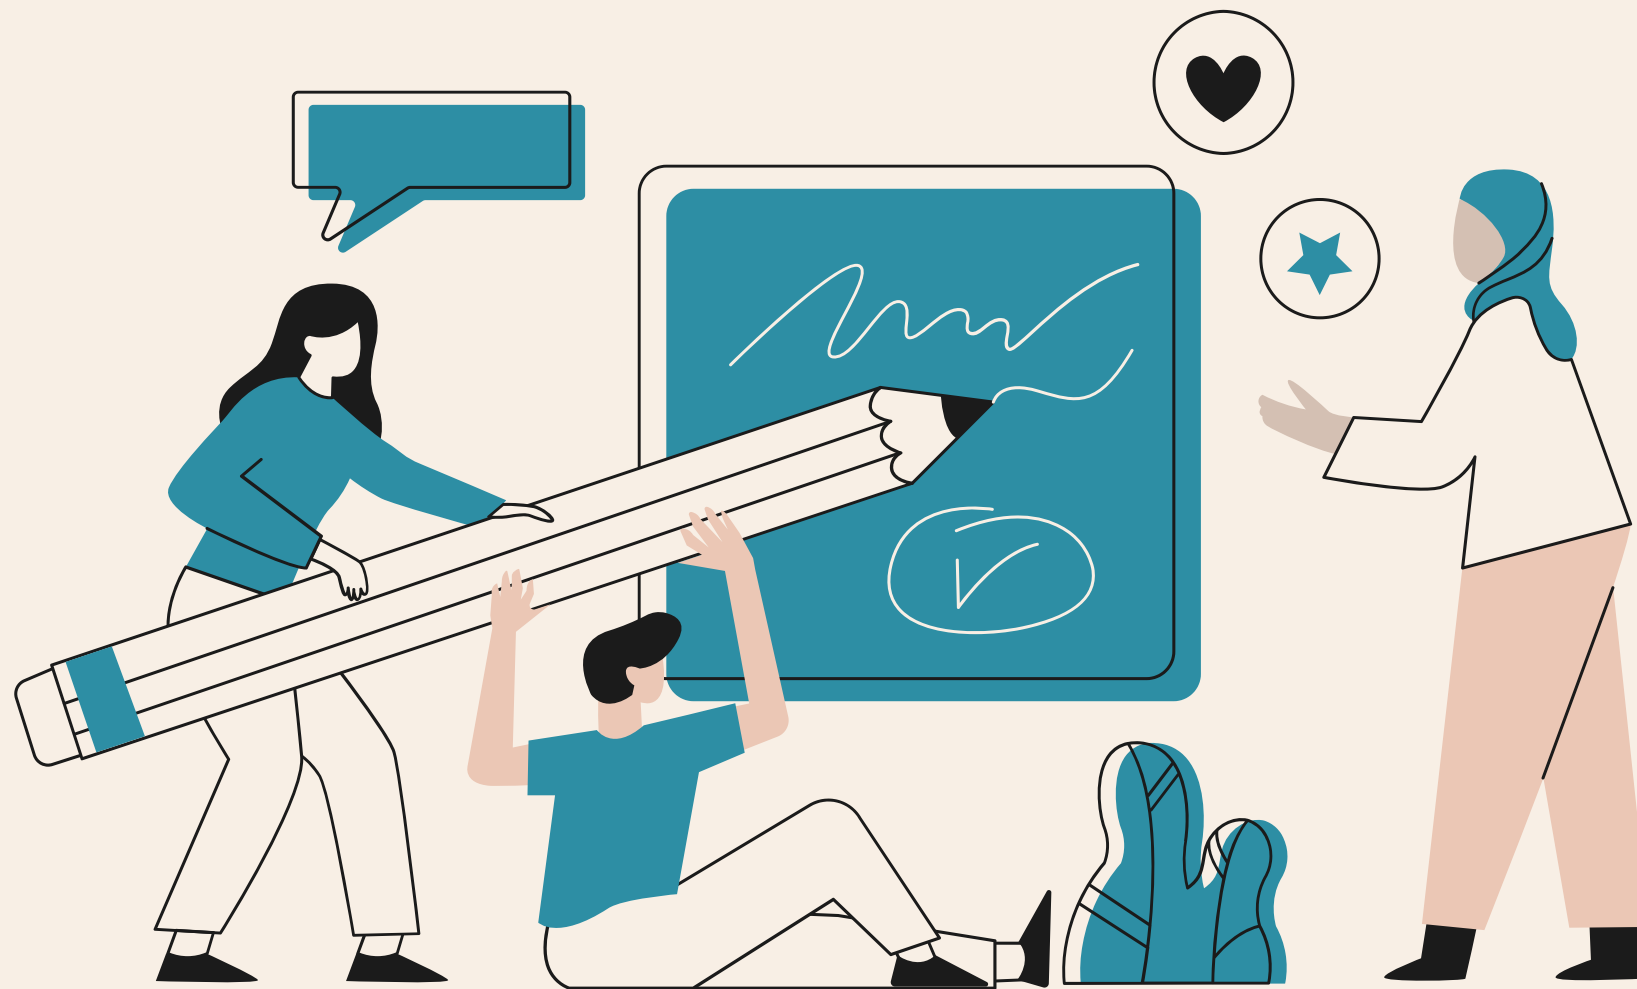

Solidity

Conclusion

The main reason for making zameenKart is to make buy and sell of property much more easier for customers and give them blockchain level security and convenience for you

You are always our priority.

Thank You

The image features a background with a horizontal gradient from teal on the right to peach on the left. A large, irregular cream-colored shape is centered, containing the text "Thank You" in a bold, black, sans-serif font. Surrounding this central shape are several decorative elements: a thin, wavy orange line that loops around the blob; a dashed white line extending from the left towards the blob; a small white paper airplane icon at the end of the dashed line; a solid black dot on the upper right edge of the cream blob; a small orange circle in the upper left; a black outline of a circle in the lower left; and an orange organic shape in the lower right.
